

Longridge Vets'

No Gimmick Health Plan

We are keeping it plain and simple, gimmick free but providing the very best in flea, tick and wormer, and vaccines for your pet. And we are keeping our other prices such as surgical, dental and medication costs very competitive when compared to other practices.

Here's how it works

- Fill in a short simple form in person or download it from our website and email it to us
- Choose to collect monthly/3monthly flea & wormer, or have it posted to your home
- Set up a monthly standing order from your account to ours
- Once we receive your payment we'll dispense the medication, they'll be ready to collect. If you've made the postal option we will pop it in the post

It's that simple! No gimmicks! Only paying for what you need!

What's Included?

- For cats it's a full booster and monthly Nexgard Combo spot on
- For dogs it's a full booster, monthly Nexgard Spectra, and 10% off an annual kennel cough vaccine

There must be terms and conditions? Yes, but we are keeping it short and simple.

- No payment, no medication. If you have any outstanding balance on your account monies received will be used to pay towards the balance, and the health plan will not dispensed until the previous debt is cleared.
- 6 payments in 6 months to stay on the scheme at the same price. If your payments reduce from a monthly frequency we will not be able to offer the booster and flea tick wormer prevention at the plan price. IE if we do not receive a payment every 30 days we will cancel your plan. Any difference in price (from a normal selling price) will be added to your account.
- These are prescription only medications so our vet needs to see your pet once a year, but that's your booster which is included in the plan.
- For puppies and kittens under 1 year we need regular weigh ins to check they receive the appropriate dose as they grow. Pop in and weigh them when passing. There is no charge for weigh-ins.
- You'll need to consent to receiving texts and emails so that we can send reminders and notifications to you.
- You can cancel after 12 months. Just drop us an email. If you haven't utilised the booster vaccine you can cancel at 6 months.
- We promise to keep the plan cost effective to give you savings. We may need to change the price 6 monthly. We will send you an email to let you know the change. You'll have an option to change your standing order or opt out.

Opting for a postal service has a couple more clauses...

- We will send a text or email when your pet's monthly medication is enroute. If it has not arrived within 5 days please let us know.
- For whatever reason some addresses seem more difficult to reliably receive post. If your pet's medication has failed to reach you twice we will ask you to collect the monthly medication, or leave the plan.

It's that simple. No fleas, ticks or worms. A yearly booster. A simple monthly standing order. No gimmicks.
